When Miss Greer asks each child in the class to write a story, second-grader Aaron, who loves to draw but struggles with reading, creates a story using pictures.

Arlo likes octopuses, but when he tries to draw one, his picture does not turn out well at all – or does it?

This picture book follows one color’s journey throughout history – from ancient Afghan painters to 1905, when a chemical blue dye was created.

Imagines a day in the boyhood of Japanese American artist, Isamu Noguchi, while wandering through an outdoor market, through the forest, and then by the ocean.

The creator of Home turns a droll eye to the natural world, with gorgeous art and a playful invented language.

Early fluent readers will learn how music and dance can help us focus, relieve stress, and increase mindfulness.

**Part I: Chapters 1-13**

"Asperger's syndrome" is an outdated term for a certain category of autism spectrum disorder, which causes a person's brain to think differently than most people's. You may wish to research some of the symptoms of Asperger's. Because of Rose's differences, she has difficulty in school and forming relationships with her classmates. What strategies does Rose use to help herself in the classroom and to talk to her classmates?

Rose's classmates do not seem to accept her. Why do you think they have a hard time with her behavior?

What suggestions do you have to help someone who struggles with interacting with others?

Why is the relationship between Rain and Rose important?

**WRITING PROMPT:**

Rose believes that rules are essential, and she gets very upset when someone breaks a rule. Do you think some rules are meant to be broken? Explain your answer.

---

**Part II: Chapters 14-22**

Do you think Rose's father let Rain go by accident or on purpose? Explain your answer.

Why do you think her dad does not seem to care about Rain being gone?

How is Rain's disappearance affecting Rose?

How would you describe Rose's relationship with her father?

**WRITING PROMPT:**

Wesley and Rose finally get supplies in preparation for the storm. If you could only bring one item to keep during a storm, what would you bring, and why?

---

**SAY WHAT?**

"Making a mistake is accidental. Breaking a rule is deliberate." – Rose Howard

Rose's Asperger syndrome makes everyday tasks, like building relationships with her peers, a struggle. Rose loves rules, homonyms, and her dog, Rain, a gift from her dad. (Yes, she named her dog "Rain Reign" after the homonyms.)

Rose has grown up believing her differences are what caused her mother to leave. She has lived alone with her father, Wesley, since she was two. He wants to care for Rose, but he just doesn't understand her, and he spends too much time at the local bar. Luckily, Rose has a great relationship with her Uncle Weldon, her dad's brother.

When Hurricane Susan comes through their rural town, they are left without power, and then Rain goes missing because Rose's father let the dog out of the house without a leash.

Rose and Uncle Weldon set out to find Rain. After calling several animal shelters, they learn that a dog fitting Rain's description has shown up at Happy Tails. Rose and Rain are reunited, but then the vet discovers that Rain actually belongs to another family, the Hendersons, who have relocated due to the storm. Rose's obsession with following rules drives her to find the Hendersons and return the dog, even though it makes her sad.

There are even more difficult truths and choices in store for Rose when her father abruptly takes her to live with her uncle, but she soon learns that changes in her routine can be a very good thing.

Rain Reign is an astounding book that will break your heart and patch it back together piece by piece until the very end.
