An Interview with Author

Lois Lowry

Newbery Medalist and New York Times best-selling author Lois Lowry has written more than 40 books for children and young adults, including Number the Stars, The Giver, and the Anastasia Krupnik series. In The Windeby Puzzle, her latest novel for middle grade readers, Lowry transports readers to an Iron Age world through the suspenseful dual narrative of a boy and girl both battling to survive. In an utterly one-of-a-kind blend of fiction and history, a master storyteller explores the mystery and life of the 2,000-year-old Windeby bog body.

You interweave the stories of Estrild, Varick, and your own creative journey. The result is a book that feels naturalistic and inviting. What led you to this innovative structure?

It’s odd, isn’t it, to go back and forth between me and the fictional characters? But I needed to tell the reader what the origin of the fiction was, and that there was truth embedded in it. I know from my mail that readers are actually interested in how a story comes into being. “How do you get your ideas?” is the question all writers hear most often. So I decided to answer it in this book, and the answer is, actually, a story begins when the writer wonders about something, then invites the reader to wonder as well. I wanted to show the process by which that happens.
Lois Lowry

The story includes period details, like rituals and clothing, and beyond that, inhabiting the mindset of the Iron Age people. Notably, you revised the manuscript to remove references to days/weeks/months, as they would have lived without calendars. The story also has a plot twist that you, the author, did not see coming – namely the discovery of the Windeby Child being a boy instead of a girl. With all these elements – history, imagination, surprise – was there a part of the writing that you especially enjoyed?

Let me set the scene a bit. It was spring of 2020. My spouse, Howard, was hospitalized with COVID for 10 weeks, and I was not allowed to visit. I’ve always been a reader but during that period of frightening isolation I read more than usual, sometimes things I might not have ordinarily encountered. Suddenly I happened on a mention of the body found in Germany in 1952. I started wondering. I started imagining. I started writing. I started researching. The most orderly way to go about it would have been to do the research first. But I couldn’t go to libraries (2020, COVID, remember?) so I simply let my imagination take over and combed through the internet to find what I could. I created the character and began the story. Doing it that way meant a lot of stumbles, moments of “Oops!” and having to rewrite things that I later realized I had gotten wrong. But it was exhilarating, no question, and it kept my mind off the problems that surrounded me. Howard recovered, eventually, and he actually helped me write one scene… more about that in a minute.

There are two focuses between Estrild and Varick’s stories. Estrild is focused on breaking out of the roles expected of her and Varick on the idea of doing one brave thing before you die. What led you to frame their stories around these ideas?

I was grappling with the initial mystery: the why of the body in the bog. But a story needs more than just a “Oh, that’s it” moment. It needs a pervasive theme, a reason for the retelling. I would never know – no one would – what had actually happened to that young...
Lois Lowry

person 2,000 years ago. So I had to create an answer to that question. But more importantly: I had to tell a story (two stories, as it turned out) that would have some redemptive quality. I wanted to show that those two lives had value, that they mattered. And in these two stories, these two doomed adolescents moved history a tiny notch forward.

Was there any scene or moment that you particularly enjoyed writing, or that is your personal favorite?

I mentioned that Howard, while he was recovering, helped me write a scene. Howard is a retired physician, and every year I listen to him speak to the graduating class at Harvard Medical School about the history and nobility of the profession, how the most important task in medicine is to care about and for the patient. It was he who described to me how the fictional Iron Age boy, Varick, must brace himself and with great effort tug the femur – down, up, in – in order to maneuver the blacksmith’s dislocated hip back into the socket. Howard pointed out that of course today’s patient would be anesthetized. So we gave the iron forger a whole lot of ale to drink, and willow bark to chew on. (Still, I winced, writing the scene.)

Was there any way that the experience of writing this work was different from writing your past novels?

I’ve written so many different kinds of books. But I think they all, essentially, do the same thing – or try to. They invite the reader in as a participant. I want the reader to enter the consciousness of the protagonist, to feel and understand that person’s world and those circumstances, to worry and tremble and rejoice and triumph, and to emerge changed in some essential way. The Windeby Puzzle was no different, though perhaps we – writer and reader both – had to make some larger-than-usual leaps of imagination.

**Part I: Chapters 1-13**

"Asperger's syndrome" is an outdated term for a certain category of autism spectrum disorder, which causes a person's brain to think differently than most people's. You may wish to research some of the symptoms of Asperger's. Because of Rose's differences, she has difficulty in school and forming relationships with her classmates. What strategies does Rose use to help herself in the classroom and to talk to her classmates?

Rose's classmates do not seem to accept her. Why do you think they have a hard time with her behavior?

What suggestions do you have to help someone who struggles with interacting with others?

Why is the relationship between Rain and Rose important?

Compare and contrast Rose's uncle and father. How do they both help care for Rose?

**WRITING PROMPT:**

Rose believes that rules are essential, and she gets very upset when someone breaks a rule. Do you think some rules are meant to be broken? Explain your answer.

---

**Part 2: Chapters 14-22**

Do you think Rose's father let Rain go by accident or on purpose? Explain your answer.

Why do you think her dad does not seem to care about Rain being gone?

How is Rain's disappearance affecting Rose?

How would you describe Rose's relationship with her father?

**WRITING PROMPT:**

Wesley and Rose finally get supplies in preparation for the storm. If you could only bring one item to keep during a storm, what would you bring, and why?

---

"Making a mistake is accidental. Breaking a rule is deliberate." – Rose Howard

Rose's Asperger syndrome makes everyday tasks, like building relationships with her peers, a struggle. Rose loves rules, homonyms, and her dog, Rain, a gift from her dad. (Yes, she named her dog "Rain Reign" after the homonyms.)

Rose has grown up believing her differences are what caused her mother to leave. She has lived alone with her father, Wesley, since she was two. He wants to care for Rose, but he just doesn't understand her, and he spends too much time at the local bar. Luckily, Rose has a great relationship with her Uncle Weldon, her dad's brother.

When Hurricane Susan comes through their rural town, they are left without power, and then Rain goes missing because Rose's father let the dog out of the house without a leash.

Rose and Uncle Weldon set out to find Rain. After calling several animal shelters, they learn that a dog fitting Rain's description has shown up at Happy Tails. Rose and Rain are reunited, but then the vet discovers that Rain actually belongs to another family, the Hendersons, who have relocated due to the storm. Rose's obsession with following rules drives her to find the Hendersons and return the dog, even though it makes her sad.

There are even more difficult truths and choices in store for Rose when her father abruptly takes her to live with her uncle, but she soon learns that changes in her routine can be a very good thing.

Rain Reign is an astounding book that will break your heart and patch it back together piece by piece until the very end.

Ibi Zoboi is the New York Times best-selling author of My Life as an Ice Cream Sandwich, Pride, and American Street, a National Book Award finalist and New York Times Notable Book. She is the editor of the anthology Black Enough. Her latest young adult novel, Nigeria Jones, is a searing, powerful coming-of-age story about discovering who you are in the world – and fighting for that person. It’s about having the courage to be your own revolution.

What inspired you to write Nigeria Jones?
I’ve always wanted to write a story set in a community very much like the ones I’ve been a part of my entire adult life. But Nigeria Jones really took shape when I wrote the short story for the Black Enough anthology. I wanted to represent a kind of Black community that is rarely seen in the media – a fringe community that centers African diaspora cultural awareness, health and wellness, sustainability, environmentalism, and social change in their daily practices. The character of Nigeria Jones started out as a play I wanted to write for a friend who had grown up in one of these communities. As the story shows, these communities are not perfect by far, but in trying to create safe spaces for us, some members thrive – while others, especially the young people, are forced to question the validity of these spaces. This is where Nigeria’s story begins.
You have said that *Nigeria Jones* is your most personal book to date. Why is that?

Well, because I’m still part of these communities, I’m very careful about how I represent the people who help organize and lead them. While they are not secret, they are absolutely sacred. There are certainly some bad actors, but that is not indicative of every community. Alternative lifestyles face a lot of ridicule in the media, especially the children who are raised in these communities. From the way we choose to wear our hair to what we eat and the clothes we wear. It’s now becoming more mainstream to wear natural hair and to be vegan and wear cultural attire. But there is still a lot of underrepresentation. Black hippies exist, or better yet, Afrobohemians exist, and we matter. But very much like every community that strives to live outside of the status quo, the young people who are born and raised in these spaces don’t always want to be different. These lifestyles come with a particular worldview that isn’t always in line with what everybody else is doing. It’s a lot of work and compromise to exist on the fringe. So I’m very sensitive about this story and how I will talk about it to readers. It truly is close to my heart.

How have your own personal intersections shaped this story?

*Nigeria Jones* is 16 years old at the beginning of the book. I am a very long way from sixteen, but I pulled from a lot of my experiences as a teen to tell this story. My strict Haitian immigrant upbringing was sort of like Nigeria’s community. I attended an all-white Catholic high school, and that was a cultural shock in many ways, just like Nigeria attending a predominantly white Quaker school. I was part of my high school’s Speech and Debate team and I included that experience in Nigeria’s story. Another major theme in the novel is maternal health. I had all three of my children at home with a midwife and this was part of my practicing body autonomy, a journey that started in high school. Ultimately, I poured a lot of my personal experiences into this story – from Teenhood to motherhood.
In this novel, you “remix” the Constitution. Why is that important to Nigeria’s story?

I think the US Constitution is a huge part of any dialogue concerning body autonomy and personal freedoms, especially now. There’s religious freedom, which includes living a fringe lifestyle, to all the various amendments that give individuals the right to happiness and justice. For all. But how do these rights that the founding fathers came up with affect a Black, half-Haitian girl in Philly? What roles did Black girls have in the lives of the founding fathers? Was their freedom and happiness even considered? These are the questions that Nigeria posits as she navigates her family, her community, her Quaker school, and her city. The constitution is housed and was drafted in Philadelphia. I had to include it in the story!

You often incorporate magical elements into your otherwise realistic stories. Does that happen naturally, or do you always write with that intention?

Magical realism or surrealism has always been part of my creative process. It is also part of my daily life. It’s how I see the world. There is symbolism and an element of magic in everything, so naturally, I infuse it into almost everything I write. In fact, not including surrealism is harder for me. I just saw the term Afrosurrealism. I want to aim for that in my work. I think it captures the Black experience perfectly.

What do you hope that readers take away from Nigeria Jones?

While this is about a girl growing up in fringe communities (even her Quaker school can be considered fringe), I want all readers to see themselves in Nigeria. This can be more than a window book. So many young people are coming of age in families and communities whose views differ from their own. How do they find their way in the midst of so much hypocrisy and misinformation? This story is so relevant now when adults are doubling down on harmful ideas and are asserting their power in ways that can silence and shame their own children. I hope Nigeria Jones will incite small, personal revolutions in every reader.
