After spending her early years in Wuhan, China, riding water buffaloes and devouring stinky tofu, Laura immigrates to Texas, where her hometown is as foreign as Mars – at least until 2020, when COVID-19 made Wuhan a household name. In Messy Roots, Laura illustrates her coming-of-age as a girl who simply wants to make the basketball team, escape Chinese school, and figure out why girls make her heart flutter. Toggling seamlessly between past and present, China and America, Gao’s debut is a tour de force of graphic storytelling.</td>

SOME DAYS CHANGE EVERYTHING…
Sofia lost her mother eight months ago, and her friends were 100% there for her. Now it’s a new year, and they’re ready for Sofia to move on. Problem is, Sofia can’t bounce back, can’t recharge like a cell phone. She decides to write Dear Kate, an advice columnist for Fifteen Magazine, and is surprised to receive a fast reply. Soon, the two are exchanging emails, and Sofia opens up and spills all, including a few worries that are totally embarrassing. Turns out even advice columnists don’t have all the answers, and one day, Sofia learns a secret that flips her world upside down.

Charles A. Bush was raised in Philadelphia. Every Variable of Us, his first novel, is about teenager Alexis Duncan's promising basketball career coming to a halt after being injured in a gang shooting. At the urging of a new Indian student (and crush?) Aamani, Alexis shifts her focus to the school's STEM team in hopes of earning a college scholarship but gains more than she could’ve imagined.

Can you start by telling us a little bit about yourself?

I grew up in Philadelphia, where I attended Cabrini University before traveling across the pond to hone my craft at the University of Oxford. Before focusing solely on my writing, I played basketball professionally overseas. Some have told me that I have a Marvel obsession. But I wouldn’t call seeing Avengers: Endgame 12 times in theaters an obsession. I’d say that’s just having good taste in movies. But perhaps the most significant thing you should know about me is that writing is my life. Like, if I couldn’t write, I’d want to be Spider-Man or a Pokémon trainer. And since neither of those is lucrative or even an actual profession, I’m not sure what I’d be doing with my life if I couldn’t write.

What made you decide to write Every Variable of Us?

Like the novel’s protagonist, Alexis, I was a Black kid in a poverty-stricken environment who was told all my life that I had to be one thing to make it in this world – an athlete. And more so, I was told I couldn’t be queer. So I wanted to write a story for all the queer Black kids like me, who grow up in the hood scared to come out because they think it makes them less than, or that they can’t excel in math or science because that’s not what Black kids do. So this novel is very much for them.
What do you hope readers take away from the book?
I hope that Black queer kid I referenced in your previous question knows that they’re not less than. I want them to read the book and know they can be or do anything if they put their mind to it and that they can be their whole selves unapologetically. Because to quote Aamani in the book, “You’re a supernova!”

What was the biggest challenge you faced telling this story?
Since this is such a personal novel, the most challenging part was reliving and facing past traumas. Things like recreating a version of the West Philly apartment my mom, siblings, and I lived in, a one-room apartment where the four of us had to share a bed. And remembering that feeling of my stomach growling like a velociraptor from another night where all we had to eat was a tiny bag of ramen noodles. And all the suppressed memories of my family and friends teasing me for being me, leading me to believe that my queerness was something I had to hide and something I couldn’t be proud of.

Sorry, was that too emo of an answer? Here, how about this? The biggest challenge was coming up with the title. A good title is hard to come by. It’s like trying to get a PS5. Yeah, let’s go with the “title” answer. That’s way less emo.

Do you have any advice for young writers who want to write stories about their own underrepresented and excluded experiences?

After Philly teenager Alexis Duncan is injured in a gang shooting, her dreams of a college scholarship and pro basketball career vanish in an instant. To avoid becoming another Black teen trapped in her poverty-stricken neighborhood, she shifts her focus to the school’s STEM team, a group of self-professed nerds seeking their own college scholarships. Academics have never been her thing, but Alexis is freshly motivated by Aamani Chakrabarti, the new Indian student who becomes her friend (and crush?). Alexis begins to see herself as so much more than an athlete. But just as her future starts to reform, Alexis’s own doubts and old loyalties pull her back into harm’s way.

“A bolt of lightning on my kicks...The court is SIZZLING. My sweat is DRIZZLING. Stop all that quivering. Cuz tonight I'm delivering,” raps twelve-year-old Josh Bell.

Thanks to their dad, he and his twin brother, Jordan, are blood—he's got mad beats, too, which help him find his rhythm when it's all on the line.

As their winning season unfolds, things begin to change. When Jordan meets a girl, the twins' bond unravels. Josh and Jordan must grow up on and off the court and realize family. Told in dynamic verse, this fast and furious middle grade novel bounces with rhythm and bursts with heart.
