Ignite a Passion for STEM

THE FIRST INTERACTIVE 3-D SCIENCE CURRICULUM

Interactive 3-D has been shown to be a more effective tool for learning than traditional teaching resources. Lifeliqe is the first web-based, K-12 digital science curriculum with over 1,300 interactive 3-D models, including augmented, virtual and mixed reality features.

Explore over 700 lesson plans aligned to Next Generation Science Standards (NGSS) and Common Core to supplement your science titles and give your readers a more immersive experience.

Designed for Your Favorite Devices

On Chromebooks™, PCs, tablets and interactive whiteboards, Lifeliqe was designed for ease-of-use on the device of your choice. Lifeliqe also correlates with the most common science textbooks and integrates Microsoft products and Google Classroom.

3-D Within Reach

Lifeliqe is the affordable way to bring interactive 3-D to your readers. Contact your Follett Sales Professional for more information and a free demo of Lifeliqe.

Find your Follett Sales Professional at follettlearning.com/repfinder.
Explore the Possibilities of Interactive 3-D

Experience the features only Lifeliqe can provide.

First science curriculum enhanced with interactive 3-D and AR models.

Engage students with hundreds of lesson plans aligned to NGSS and Common Core.

Create, share and publish your own interactive 3-D lesson plans.

Explore thousands of interactive 3-D models in STEM subjects and topics.
