Lexile Measures Labels, Available in small labels only

Small labels:

The Call # and Author/Title are printed above the labels to help easily identify which labels belong to which book.

Two adhesive labels identify book as a Lexile Measured item and include Lexile score below.

Small label actual size = 1” x 1”
AR Labels

**Small labels:**

Quiz #, Call # and Author/Title are printed above the labels to help easily identify which labels belong to which book.

Two adhesive labels identify the following:
- Reading level
- Point value

Small label actual size = 1” x 1”

**Large labels:**

Invoice # and Call # are printed above the labels to help easily identify which labels belong to which book.

More descriptive with Title first, followed by Author, Reading level, Point value and Quiz #.

Large label actual size = 2.5” x 1”

* Labels are printed in call # order
