EYEDISCOVER — A New Imprint of AV²

EYEDISCOVER is designed to inspire children from Grades K-2. EYEDISCOVER Media Enhanced Books bridge the gap between print and digital. EYEDISCOVER is built to work on every device and is optimized for the iPad.

DESIGNED FOR RELUCTANT READERS
Each hardcover book is packed with special features designed for reluctant readers. An optic readalong included with each title uses real actors to read the book aloud. This allows beginning readers to listen at their own pace.

OPTIC READALONGS COME ALIVE WITH:
• Audio - Listen to the entire book read aloud.
• Video - High-resolution videos turn each spread into an optic readalong.
• Optimization - Books are compatible with iPads, tablets, whiteboards, computers and much more.
• Hardcover Book - This unique media enhanced book has a code on page 2 to unlock the optic readalong.

IMPROVE FLUENCY
Common sight and content words help young readers improve their fluency and reading comprehension. Every hardcover book includes two full pages of highly visual infographics that bring topical facts to life.
